

Discussion: Human Interface Guidelines

Discussion in WEEK 2 : ASSIGNMENTS

20

JAN

STATUS

Now that you have read the design and icon sections of the HIGs for iOS and Android, find a mobile app that is 3rd party that conforms to either HIG. Explain 4-7 ways that the app complies and provide 2-4 screenshots to support your response. Screenshots can come from your own device or from the app stores.

*Note: You may NOT use an app that another student has already posted to the discussion board.
